NORWOOD

HEADED BY JOHNSON.

He Receives Gubernatorial Nomination by Acclamation.

CLARKE AS SENATOR

William Jennings Bryan by Special Resolution Was Tendered an Invitation to Participate in the Campaign.

Columbus, O., Aug. 27.—The Johnson programme was carried out completely in the Democratic state convention. After the opposition obstructed the proceedings with minority reports for some hours, the name of John L. Zimmerman of Springfield was not presented for the gubernatorial nomination and then every nomination on the state ticket was made by acclamation without opposition. Even after the chair announced that the name of Tom L. Johnson was the only one before the convention for governor there were some dissenting Zimmerman votes on the motion to make the nomination unanimous, but the Zimmerman men quit after the selections for governor and senator were made. Still the opposition by various obstruction movements kept the convention in continuous session for about seven hours. When the minority reports were presented from the committees the only fight that worried the Johnson managers was on the senatorship. The only ballots forced on the dominant element were in that contest. The minority report on rules and order of business, which was intended to omit the endorsement of a senatorial candidate, was defeated by a vote of 211 ayes to 446 nays, and that was considered a test vote between Johnson and Zimmerman caused a great demonstration. The result of the convention leaves the party organization in Ohio eighteen to three in the hands of the Bryan-Johnson element for next year, when delegates to the Democratic national convention are to be selected. The ticket is:

Governor—Tom L. Johnson, of Cleveland.
Lieutenant Governor—Frank B. Miles, Toledo.
Supreme Judge—Edward J. Dempsey, Cincinnati.
Attorney General—Frank S. Monnett, Columbus.
Treasurer of State—V. J. Dahl, Washington Courthouse.
Auditor of State—C. A. Kloebe, Wapakoneta.
School Commissioner—J. H. Secrest, Ottawa.
Member of Board of Public Works—T. H. B. Jones, Ironton.
United States Senator—John H. Clarke, Cleveland.

Corsicana Claims Game.

Corsicana, Tex., Aug. 27.—Manager Doak Roberts of the Corsicana ball team will claim Wednesday's game from Dallas on a forfeit, as he instructed his pitcher to throw a ball over the plate at the time to call game Wednesday, and claim the game because the Dallas team failed to appear. Roberts protests vigorously against the explanation made by Manager Gardner of the Dallas team as to the cause of his refusal to play the game in Corsicana.

New Agreement.

Buffalo, N. Y., Aug. 27.—A meeting in which representatives of the National League, the American League and the National Association of Minor Leagues ended after a two days session. With the draft of an agreement drawn by the minor league representatives before them, the major league officials drew up a carefully worded agreement and submitted it at the final meeting. This agreement will be acted upon at a meeting of the National Association of Minor Leagues, to be held within the next ten days. The agreement prohibits farming out players. The right of a minor league to a player shall be absolute except from Aug. 15 to Oct. 15 each year, when major leagues may select players upon payment of \$750 for Class A men and \$500 for class B.

AMERICAN MURDERED

Vice Consul at Beirut Slain While in a Carriage.

MISCREANT UNKNOWN

Dead Man Was a Native of Minnesota and Was Appointed to the Position by His Brother-in-Law, the Consul.

Washington, Aug. 27.—The state department has received a cablegram from Minister Leischman at Constantinople announcing that William C. Magelssen, United States vice consul at Beirut, Syria, was assassinated Wednesday while riding in a carriage. The American minister immediately brought the crime to the attention of the government and demanded action by Turkey. Acting Secretary Loomis has cabled Minister Leischman instructing him to demand the immediate arrest and punishment of the persons guilty of the murder. No demand for money indemnity for the man's family has yet been made, but that will probably follow. Magelssen was a native and appointed from Minnesota.

Admiral Cotton, commanding the European squadron, has been cabled by the navy department to have his vessels in readiness to move to Beirut, which is on the eastern shore of the Mediterranean sea, in case the demands of the United States government upon the Turkish government are not complied with. The Brooklyn and San Francisco are at Villefranche and the Machias is at Genoa. Magelssen, who was a Scandinavian, was appointed vice consul at Beirut Sept. 20, 1899, by Consul Gabriel Rayndal, who is of the same nationality. At the time of his appointment as vice consul he was a consular clerk in Turkey. Magelssen was appointed on recommendation of Senator Nelson of Minnesota, who says he is the son of a prominent Lutheran minister. He was born in Bratsburg, Fillmore county, Minnesota. Minister Leischman's cablegram was dated Wednesday and stated the assassination occurred Sunday, the minister being informed of the crime by Consul Rayndal. The consul stated that the murderer was not seen and is not known.

STRONG COMMENT.

Said to Indicate a Disturbed Condition of Affairs.

Washington, Aug. 27.—The announcement of the assassination of the American vice consul following so soon upon the assassination of the Russian consul in Turkey created strong comment in official circles and the suggestion was made that such frequent assassinations indicate a very disturbed condition of affairs in Turkish dominions. Minister Leischman gave no particulars of the assassination and the state department has no information as to the cause of the murder. The American government will insist that the local authorities be punished if the were derelict in their duty and that full measure of punishment be given the actual perpetrator of the outrage.

FROM MINNESOTA.

He Was a Brother-in-Law of Consul Rayndal of Beirut.

St. Paul, Minn., Aug. 27.—William C. Magelssen, vice consul at Beirut, Syria, who was assassinated Wednesday, is a young man and a brother-in-law of Consul Rayndal, who appointed him. Consul Rayndal is from North Dakota. Magelssen was appointed from Freeborn county, Minnesota, about two years ago. It is not known here whether he has a family of his own. He is a brother of Mrs. Rayndal.

Forwarded to President.

Washington, Aug. 27.—The state department has forwarded Minister Leischman's communication to President Roosevelt at Oyster Bay.

Lawyers in Convention.

Hot Springs, Va., Aug. 27.—The annual convention of the American Bar association opened here. About 200 lawyers are in attendance. The session will last until Friday night. Charles Libbey of Maine called the convention to order in the absence of U. M. Rose, the retiring president, and presented Francis Rawle of Philadelphia, president of the association.

Seized by Russians.

LOST BY SEAWEED.

New Rice Pest Causes Much Damage in a Louisiana Parish.

Estherwood, La., Aug. 27.—Mr. Nolan, living southeast of here in Vermillion parish, has lost 200 acres of fine rice with seaweed. Three weeks ago the weed hardly showed in the rice and now is as high as a man's head. This is a new rice pest for Louisiana. It grows tremendously and will kill out the best field of rice in a short time, once it gets started. It is only found on land where salt water was put on last year. Hundreds of acres will be ruined by seaweed and grass in that country.

Charges and Allegations Are Said to Be Under Investigation.

Washington, Aug. 27.—It is said at the department of justice that charges and allegations which have been made regarding the official conduct of United States Attorney P. T. Soper, his assistant, Mr. Huckleberry, and United States Marshal Colbert, all of the Indian Territory, are already under investigation, and in due time a full report will be made to the attorney general. Messrs. Soper and Huckleberry are alleged to have associated themselves with one of a number of trust companies having to do with Indian lands, but no charge is made that the particular company with which the gentlemen are connected has been guilty of wrongdoing. The charges against Marshal Colbert relate to his official conduct outside of Indian land matters.

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Kauble, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

RACE AGAINST TIME.

The Third Contest Was Between Reliance and the Limit.

New York, Aug. 27.—It was dark and lowering Thursday morning when the crews of the two big yachts appeared on deck to prepare for the third contest. The sky was overcast at 7 o'clock and light showers of rain were falling in many places within a radius of fifty miles of Sandy Hook. The southeast breeze, which blew finely all day Wednesday had blown itself out by dawn, and although there were faint breaths of air from that direction there were many calm spots out over the ocean. At 8 o'clock the wind freshened somewhat and was blowing about four miles an hour from the east. Shortly after 8 o'clock the crews on the two yachts were encouraged by the appearance of a few scattered rays of the sun. They put up stay sails and jibs in stops and took cover of main sails. The Irish boat also raised her main sails, the same ones she used Tuesday in the triangular race.

At 8:15 the Reliance raised her main sail, the same she used throughout the series of races. She wore a new gaff that was measured Wednesday. It was similar to the old gaff, but con-

sidered a trifle stronger in case of a stiff breeze. At 8:30 Shamrock sent up her club top sail, but had quite a little trouble in getting it set properly. The wind hauled a trifle south and clouds began to break near the horizon.

At 8:45 the Reliance started for the lightship, in tow. At 9:05 the Shamrock, under tow, followed the Reliance toward the lightship.

Despite the discouraging conditions, when the committee arrived at the starting line, it was decided to make an attempt at a race and the course was signalled southeast for a windward and leeward race. The wind at this time was scarcely more than three or four miles an hour. As the course signals were broken out the yachts dropped tows, set jibs and forestay sails and began to sail about the starting line. Twenty minutes before the time set for the start the wind seemed to increase a bit.

At 10:56 warning signals were fired with both boats to windward and the wind was about five miles from south-east. The time when both boats crossed the starting line was 11:02, official. Unofficial bulletins said Reliance crossed the line first at 11:02:58 and the Shamrock at 11:04:05. Both boats had such a close fight for position that neither crossed before handicap gun was fired, so official time for start was 11:02. Twenty minutes after the start the Reliance was apparently in the lead by half a mile.

A Marconi wireless message said that four miles after the start the Reliance was leading by half a mile. The sea was smooth, the weather cloudy and

the wind five knots and increasing. At 12:09 the Reliance looked to be nearly a mile ahead.

The Reliance twenty minutes after the start had an apparent lead of half a mile. Conditions gave the Reliance a very decided advantage, for though both were officially timed in crossing at 11:02, the Shamrock actually crossed one minute and seven seconds behind her competitor, thereby reducing the time which the Reliance must overcome in time allowance one minute and seven seconds. Thus the Reliance in actual sailing had only to overcome the time allowance fifty seconds.

The Shamrock moved so slowly she was scarcely a mile from the lightship when she came about. Neither yacht was heeling over to any extent. The air was very light and the excursion fleet had to stop so as not to be in advance of the racers.

At 12:42 the Reliance was estimated to be five minutes in the lead of the Shamrock.

At 12:50 both boats were in view. The Reliance was apparently leading by over a mile.

At 3:30 the race developed into a contest between the Reliance and the time limit, with the Shamrock hopelessly astern.

The officers will make a determined effort to rid the town of idle and vicious characters and it will be either work or get out of town with that class in the future.

GONE TO THE PENITENTIARY.

The following is taken from the Houston Post, Mrs. Alice Tiemann, one of the women referred to, having, it is alleged, formerly been Mrs. Alice Spell, who was acquitted in Grimes county of a charge of murdering her first husband.

Penitentiary Contractor Luther arrived in the city yesterday with a batch of five prisoners for the Huntsville penitentiary. Among the number were two white women, Lula Palmer, convicted in Jones county and given seven years on the charge of killing her husband, and Alice Tiemann, convicted in Coryell county and given three years on the charge of robbery.

Alice Tiemann is apparently about 28 years of age. She appears to be in the best of health, and looks upon her trip to the penitentiary as one would look upon a trip to the seashore on a hot summer's day.

She states that she is the victim of circumstances and unravels a story that would furnish a good foundation for a bad novel of the 5-cent kind. She was knocked in the head, she says, while lying in bed asleep, and was unconscious for thirty-six hours. After recovery she was arrested on the charge of robbery, the house hav-

ing been robbed of \$160 on the night that the attack was made on her. She and her husband were living in the house with the man who was robbed. She claims to know the party who committed the robbery, but would not give any name. Some days after she had recovered, she says, she got in a buggy with her little 11-year-old boy to drive several miles to the home of a relative. Before she left, she avers, the man who committed the robbery came to her and through threats forced her to take the \$160. She was arrested after having proceeded on her journey a few miles and the money was found in her possession. She states that her husband, who was a relative of the man who was robbed, deserted her and would not get a lawyer to fight the case. She has been married twice, marrying her last husband in May of this year. Before going to Coryell county she lived in Dallas, but says she was reared in Grimes county. She would not tell the name of her parents.

The marriage was solemnized in the presence of relatives and a few friends by Dr. W. C. Friley, pastor of the First Baptist church. There were no attendants. The young people will go to housekeeping September 1.

The bride has many friends and is a young lady of many graces and accomplishments. The groom is a son of Mr. and Mrs. Wm. McCorquodale and an industrious young mechanic. They have the best wishes of all.

The Eagle was in error yesterday regarding the time for the holding of the stockholders' and citizens' fair meeting at the opera house. The meeting will be held this afternoon at 3 o'clock and everybody interested in the fair or the town and county should attend.

Alonzo Carter has returned from the state encampment at Austin, and says Capt. Howard Cavitt and the Bryan boys deserve unbounded praise for their conduct and success at the encampment. They stood third in their regiment as best drilled men, and made 100 on everything except guard mount, and 91 on that. Not a man in the company was put in the guard house. Mr. Carter says Capt. Cavitt was congratulated by his regimental officers and that the company stands an excellent chance to go to the World's fair.

The soldier boys returned from Austin yesterday and say they had a fine time at the big encampment. They were laid out at Lewis about twelve hours and finally brought to Bryan on a special train of an engine and one coach. Capt. Cavitt and the boys are well pleased with the results of the encampment and the showing made by the company. The world's fair trip awards have not yet been made.

Yellow Fever Said to Be Raging in a Mexican Town.

LINARES THE PLACE.

The Startling Information Was Received by United States and Texas Officials at Laredo by Reputable Party.

Laredo, Tex., Aug. 27.—A letter was received in this city from a responsible resident of Linares, Mex., in which he states that the yellow fever was at that place, and that the death rate now is fourteen a day.

This startling information was given to the quarantine officials, both federal and state, of this city, and they will take the matter up at once for investigation.

Linares is a small town on the gulf and about three hours ride from Monterrey. The letter further said that people are fleeing from there in all directions as fast as they can get out. The recent reports about there being yellow fever in Monterrey proved false, but now, if they have not put on a strict quarantine against Linares, yellow fever is almost certain to make its appearance in Monterrey, in which event, the quarantine officers of this country will have their hands full to keep it from crossing the border.

Dr. H. J. Hamilton, United States marine hospital surgeon, received an official notice from the governor of Nuevo Leon stating that a double quarantine had been placed on between Linares and Monterrey; that is, two detention camps between these cities are established, and passengers from the infected points must run the gauntlet of being detained five days each in both places.

Dr. Hamilton says there are many cases of yellow fever at Linares and Victoria and that it is increasing at those two points.

FIRE AT DALLAS.

Several Elm Street Establishments Sustained Losses.

Dallas, Aug. 27.—A fire on Elm street Wednesday night did great damage. Two firemen met with mishaps, one being overcome by smoke and the other hit on the head. A fire horse also fell dead.

The fire was first discovered by Night Watchman Surber, who discovered the blaze on the second floor of the building at 300 Elm street, owned by Mrs. M. G. Meredith and occupied by B. T. Robinson, with a stock of racket goods, whose loss is \$4000, the upper floors being divided into offices. Mme. Josephine's millinery establishment was completely gutted. Loss about \$3000. J. W. Tobolsky lost about \$3000 on his stock of dry goods. Walter Beck's grocery store sustained \$3000 loss. Several other parties had losses.

Austin, Aug. 27.—Hon. D. E. Decker of Quanah was here on business with the executive department. He says that the gypsum factories at Acme, near Quanah, are running day and night, manufacturing material that is used in the staff work on the buildings at the St. Louis World's fair. There are three of these mills.

REMARKABLE SIGHT.

People of Naples Witnessed Wonderful View of Vesuvius.

Naples, Aug. 27.—The people of Naples and the environs witnessed a remarkable spectacle at noon Wednesday. One thousand feet below the central cone of Vesuvius, the volcano opened like a huge mouth, out of which belched forth a steam of lava, which ran down the side of the mountain and at first seemed to menace the observatory. This building, however, is protected in the direction of the steam by a mountain of lava 200 feet high. The eruption, occurred without any warning whatever. There was no earthquake, detonation or rain of ashes, nothing but a clear stream of lava and red hot stones, which were thrown to a height of 700 feet, producing an extremely beautiful effect seen from Naples. The stream of lava, which ran fifteen feet broad at 11 o'clock Wednesday night, had covered a distance of 2700 feet. It deviated later from the direction of the observatory, which is no longer menaced. The only danger is for the new electric tramway up the volcano, which, however, has thus far not been touched.

Governor of Arkansas Attacked by Judge Carroll D. Wood.

Little Rock, Ark., Aug. 27.—Judge Carroll D. Wood of the supreme court attacked Governor Jefferson Davis during a political discussion at Bismarck, Hot Springs county, and struck the governor. Bystanders interfered and prevented further trouble. Accounts vary as to the occurrence, the governor claiming that he was not struck but that Judge Wood simply shoved the chair in which Davis was sitting. Both Wood and Davis are candidates for the Democratic nomination for governor. Wood became angered at Davis' method of questioning him and advanced on the governor. The two men were on a small platform four feet from the ground and the governor was caught by several spectators as he descended from the platform after Wood rushed upon him. Between 4000 and 5000 people were present.

Sofia, Aug. 27.—An immense mass meeting of Macedonians took place here. The proceedings were most enthusiastic. It was resolved that memorandum should be presented to the representatives of the great powers at Sofia, urging their governments to take action. The secret visit of the Russian squadron to Turkish waters was much commented upon at the meeting.

It was described as a "moment of sunshine which quickly passed." The speakers passionately appealed for the immediate intervention of the powers in Macedonia, declaring that if pouring out of blood in Macedonia continues another fortnight, Europe would find nobody to save.

Dozens of bridges have been washed away.

CHOICE LIMITED.

It Seems Difficult Matter to Select New Arbitrators.

London, Aug. 27.—In order to have as little delay as possible in the meeting of the Venezuela tribunal it is understood that the interested powers have urged the czar to select immediately successors as arbitrators for Prof. Matzen, of Copenhagen university, and Dr. Lardy, the Swiss minister at Paris, who declined to act because their respective countries are interested parties. As all the important states in Europe save Russia have claims against Venezuela, the choice of delegates is limited to small states and to the eastern countries.

It is believed in official circles here, however, that the czar will succeed in finding jurists acceptable to the interested parties.

City of Mexico, Aug. 27.—The sudden rise in the price of silver with a corresponding drop in exchange has given much impetus to the remittance of funds by merchants to settle debts abroad. Game of War Was Carried on in a Realistic Manner.
